# INDUSTRY OVERVIEW

- **Definition:** Manages the entire post-purchase process — from order placement to delivery and returns — critical to e-commerce success.
- **Core Functions:** Warehousing, order processing (picking & packing), packaging, shipping/logistics, and reverse logistics (returns).

**Data Sources**

**1. Market Research and Sizing Data:**
APA Citation: Statista. (2025). Third-party logistics (3PL) market size worldwide from 2023 to 2030. Statista Research Department.

**2. Parcel Shipping Volume and Trends Data:**
APA Citation: Pitney Bowes Inc. (2025, September). Pitney Bowes Parcel Shipping Index: 2024 full-year data and 2025 forecast.

**3. Merchant and Consumer Behavior Data:**
APA Citation: Shopify Inc. (2025). The Future of Commerce 2025.

**Why This Industry is Ripe for Change and Disruption**

- **Extreme Consumer Demand:** Immense pressure to match Amazon's standard for fast, free shipping.
- **"Black Box" Operations:** Lack of real-time data, visibility, and control over inventory and orders.
- **Scaling & Inventory Complexity:** Major inefficiencies in managing distributed inventory and scaling operations.
- **Opaque & High Costs:** Unpredictable pricing models that make it difficult to manage profitability.

# OUR SERVICE

## Value Proposition

*A single, AI-powered fulfillment platform that seamlessly scales with brand's growth.*

- **Secret Sauce:** An AI-matching engine on a unified, three-tier network.
- **Key Differentiator:** The only platform that grows with you, from peer-to-peer to enterprise.
- **Market Position:** The first to combine all fulfillment stages into one seamless ecosystem.

## Revenue

*What's our Pot of Gold?*

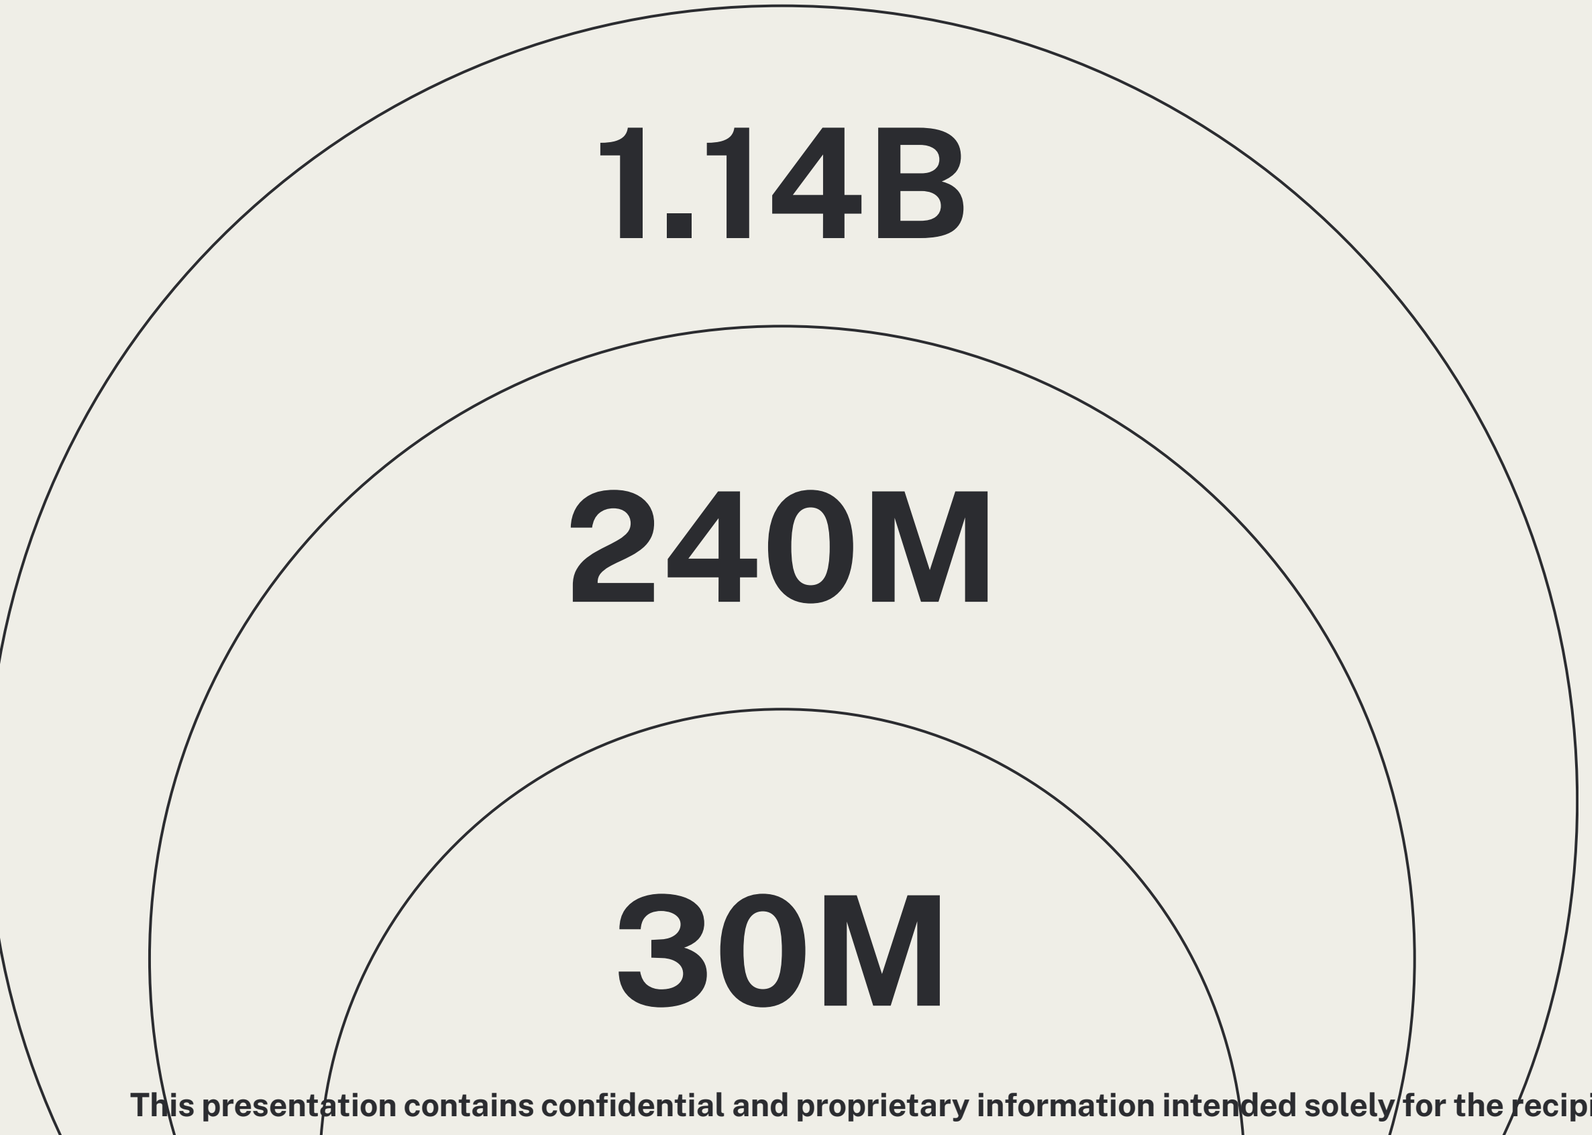

**Hybrid.**

**Software as a Service:** Platform subscription

**Transaction Based:** A percentage of total cost

**This presentation contains confidential and proprietary information intended solely for the recipient. Any distribution or reproduction is strictly prohibited.**

# SIZE OF MARKET

## TAM

All potential e-commerce sellers + P2P storage hosts in target metros

## SAM

Metro areas our platform can realistically serve e.g D.C, New York

## SOM

Realistic market share in first 1–3 years

Our target market is the ambitious e-commerce brand needing a competitive edge, which we deliver by connecting them to a network of fulfillers looking to monetize their unused capacity. This symbiotic relationship empowers sellers to offer the faster, cheaper shipping that end customers now demand. The result is a win-win-win ecosystem where sellers grow, fulfillers earn, and customers receive a superior delivery experience.

# APPENDIX

## HOW AI MADE THIS PITCH DECK POWERFUL?

- **Iterative Prompts Yield Better Results:** Refining ideas through a series of short, conversational prompts is more effective than a single, complex one.
- **Conversational Context is Crucial:** The AI's ability to remember previous parts of the conversation ensures a cohesive and consistent final result.
- **Use AI as a Strategic Brainstorming Tool:** Prompts are most powerful when used to structure complex ideas and explore strategy, not just to generate text.
- **Specific Constraints Improve Output Quality:** Providing clear limits and requirements (like length or format) forces the AI to produce more focused and useful responses.
